

12th March 2020

An important message from the Deputy CEO

As we head into the cold and flu season and become more aware of the impacts of Covid19 (Coronavirus), we want to remind people about looking after themselves and others during this time.

At Pinarc we are doing all we can to provide a healthy environment for everyone. This includes ensuring staff don't come to work when they are unwell, supporting good hygiene practices, including washing hands regularly and following up to date information from Government Health websites.

Some of the things we ask you to consider:

1. If you are unwell, please stay home and look after yourself.
2. If you do attend and appear to be unwell, please understand that we will ask you to go home.
3. Please ensure you wash your hands regularly – staff will assist if you need extra support.
4. If you have an appointment planned with one of our therapists or your support coordinator, please tell us if you are feeling unwell. We can reschedule your appointment, or we can provide support via phone or video conference.

We want to protect everyone's health and ask that you follow the above points.

If you are unsure what to do or have any questions about what Pinarc is doing, please call me on 5329 1348

Sara Cavanagh

Deputy CEO
Pinarc Disability Support
